Northwestern University, Evanston, IL

MARCH 2021 - PRESENT

Web-Developer Certification

Learned Front-end and Back-end Technologies to become effective in the work world immediately after graduation.

SKILLS

-JavaScript (Angular)
-HTML/ CSS
-API integration
-Git
-node.JS
-React

PROJECTS

Password Generator

https://bscottalexander.github.io/password-generator/

- Designed Website interface
- Built password generating formula powered by Javascript

Coding Quiz

https://bscottalexander.github.io/CodingQuiz/

- Using React I built an easy to read Coding Quiz
- Set a timer to subtract time when answers are wrong, and save your score into local storage

Work Day Scheduler

https://bscottalexander.github.io/WorkDayScheduler/

- Set up a work day scheduler that shows you the current hour you're on, what has passed and what is coming up, and allows you to update the schedule for the current day
